## **NOTICE**

### **Provisional Admission & Stream Selection**

(Session 2021-2022)

Date : 20.04.2021

#### **ATTENTION: PARENTS OF STUDENTS APPEARED IN CLASS 10<sup>TH</sup> BOARD EXAMINATION (2020-2021)**

Dear Parents,

Whole country is coping with the ongoing country-wide lockdown. It has affected the life of every individual and so of the students. Hence, to continue the teaching learning process school has already started the online real-time classes where the students can study from home.

#### **Kindly be aware about the important decision of the board:**

**A. Decision about class X board examination:** As per the CBSE directives examination of X board has been cancelled, so board examinations for class X students will be treated as over. Therefore, now it is the right time that they should also begin their new session for class XI, which can be started after their stream selection process. To make this process easy we are starting this process online.

**B. Changes in the subject Mathematics of Class XI.** As per the circular number ACAD-22/2020 dated 01-04-2020 CBSE has introduced the following:

- 1) The Board has introduced a new academic elective subject in the name of Applied Mathematics (241) at Senior Secondary Level started from the academic year, that is, from 2020-2021 session for class XI.
- 2) In view of introduction of Applied Mathematics as an Academic elective, the students who have passed Basic Mathematics (241) in Class X are now allowed to offer the new academic elective Applied Mathematics (241) at Senior Secondary Level in Class XI.
- 3) Accordingly, the students who have passed Basic Mathematics (241) as well as Standard Mathematics (041) in Class X of CBSE exam are eligible for this course. However, it is once again clarified that students who have passed Mathematics-Basic (241) at Secondary level are not eligible to opt for Mathematics (041) at Sr. Secondary Level.
- 4) This means that the students who have passed Class X with Maths basic (241) can now apply for Applied Mathematics (241) in Class XI. The students, who have passed Class X, with Maths standard (041), can now apply for Maths (041) or Applied Mathematics (241) in Class XI.
- 5) New streams combinations in class XI have been introduced with Maths (041) and Applied Maths (241) for Class XI.
- 6) Below given is the list of all the combinations now available in class XI in our school with their eligibility. The code 041 means the old Maths subject and code 241 means the newly introduced Applied Math.
- 7) You may also understand in this way that class X Mathematics Standard (041) corresponds to Class XI Maths Old (041) and Class X Maths Basic (241) corresponds to Class XI newly introduced Applied Mathematic (241).

<b>Class X (2020-2021)</b>	<b>Class XI (2021-2022)</b>
