SWACHHATA PAKHWARA 2021

SWACHHATA AWARENESS MESSAGE

‘Cleanliness is one of the qualities which is very important to obtain the blessings of God’.

- Bhagwat Puran

Cleanliness is an essential prerequisite for a healthy and happy life. We are listening from very old times that ‘cleanliness is next to godliness’. It requires the attention of everyone towards keeping the city and surrounding clean and healthy. If we start by cleaning our houses, localities and then streets, we can expect a big change. The ‘Swachh Bharat Abhiyan’ is one of the most important steps taken towards making a clean India but it will be successful when we will not be watching others from a distance but will be leading and participating in the front row. All of us should make a little effort to maintain cleanliness in the areas where we live or travel.
