

**Dear Parents,**

The curriculum and the syllabus for ..... is designed to broaden the knowledge of the students and to help them acquire skills, imbibe good human and social values.

The learning teaching process provides an opportunity to the students to explore ideas and thoughts, to become independent and confident. Credit is given to project work.

Home-work is given to the children through the school diary. You are requested to see the diary every day and ensure that your ward completes the assigned task. It is essential that you inculcate regular and systematic work habits in your ward. The work should be neat and tidy and should be limited to guiding your ward as doing homework at home makes the child confident to face the teacher in class.

The major emphasis will be on improving your child’s communicative skills, especially in English. A long way in determining the success of your ward in academics since the medium of learning in all subjects is English.

The thrust will be on developing the language skills of your ward. For this, reading of textbooks and library books is a must. Proficiency in language skills can only be acquired through continuous use. Therefore English speaking and writing cannot be ignored. It is only through consistent and continuous use of these skills that your ward will acquire the ability to communicate effectively.

We look forward to your co-operation to make the system work.

Thanking you,  
Principal
